

LOS ANGELES SHAKEN; SAN FRANCISCO'S AWFUL LOSS

FIRE SPREADS!

Shocks Continue for Nearly an Hour in City Which Has Been Working Hard for Relief of San Francisco—Telegraph Operators Send Only Meagre Details to Home Office.

LOS ANGELES, Cal., April 19.—A series of earthquake shocks, extending over a period of fifty-one minutes, rocked buildings in Los Angeles this afternoon and threw the city into a terrible panic. The first shock, at 12.34 o'clock, coast time, was not severe. Another followed at 12.40 o'clock so sharp and violent as to create the fear that this city was to repeat the experience of San Francisco.

As it was the noon hour, the stores and office buildings were pretty well deserted, but there were enormous crowds about the newspaper bulletin boards and telegraph offices waiting for the latest earthquake news. The sudden rocking of the ground rendered everybody speechless for a moment. Then the overwrought nerves of the populace had an inning.

RUSHED TO STREET IN PANIC.

Thousands of people poured out of their houses through doors and windows indiscriminately. Clerks rushed out of stores and proprietors followed them, manufacturing plants suspended. Telegraph operators in both offices deserted their instruments after sending preliminary word of the visitation to the outside world. For a time it appeared as though every building in the city would be shaken to the ground.

The shocks diminished in intensity until 1.45 o'clock, when the telegraph operators went back to their keys. But business in general was not resumed for the rest of the day. The city is in a panic of terror, fearing a recurrence of the earth tremors to-night. The duration of the second and severest shock was seven seconds. Had it continued a minute the damage would have been enormous.

SCORES OF TOWNS OUTSIDE OF 'FRISCO ARE BLOTTED OUT

OAKLAND, Cal., April 19.—Scores of towns within a hundred-mile radius of San Francisco have been completely destroyed and the loss of life probably will exceed that in San Francisco itself. Property worth more than \$50,000,000 has been wiped out.

The death roll at Santa Rosa may reach 500. In the collapse of the State Insane Asylum at Agnews 300 perished. San Jose reports 50 dead. Napa and Salinas are almost obliterated. Santa Cruz, Monterey, Gilroy and Hollister are wrecked. The loss of life at Santa Cruz was large.

Terminal Island, a beach resort twenty miles from here, is reported destroyed by a tidal wave.

Messengers bring tidings of the destruction of Healdsburg, Gersenville, Cloverdale, Nopland and Ukiah. This report takes in the country as far north as Mendocino and Lake Counties. These are frontier counties. In every case the loss of life and property is shocking.

10,000 Homeless in Santa Rosa.

Santa Rosa, one of the prettiest cities in the State, is the seat of Sonoma County. There are 10,000 homeless men, women and children huddled together.

As the last great seismic tremor spent its force in the earth the whole

ENGLISH SCIENTIST PREDICTS MORE SHOCKS AT 'FRISCO.

LONDON, April 19.—Prof. John Milne, whose seismic observatory at Shide Hill, Newport, Isle of Wight, recorded a disturbance at 1.30 o'clock yesterday afternoon, has developed his seismographic records of the earthquake. He says the disturbance was caused by the production of a large fault created by a yielding of the rocky strata while undergoing the process of upheaval. The Professor predicts local shocks later, but probably much less severe than those of yesterday.

DETAILS OF THE HORROR

The latest news from San Francisco is that a new earthquake shock was felt this afternoon. The fire is still unchecked. Some reports place the loss of life at 5,000, other estimates put it nearer 1,000. It is believed the total of killed and injured will reach 10,000.

SAN FRANCISCO, April 19, 3 P.M., 6 P. M. New York time.—The fire is still progressing. It has been coursing up Nob Hill from the southeast for several hours.

The authorities have set about making a systematic effort to discover the number of persons killed in the disaster. From preliminary reports by investigators it appears that the fatalities have been woefully underestimated.

At Least 1,000 Dead.

Certainly more than 1,000 perished in the earthquake. Many have lost their lives in the fire. The area of destruction is much wider than was originally believed. Some estimators place the number of killed and injured at 10,000.

There are 200,000 residents of San Francisco homeless and shelterless and thousands are starving. Transportation facilities are utterly inadequate to take the people out of town. Every available boat is conveying passengers across the bay to Oakland and Alameda, but the Southern Pacific is unable to get trains to the south.

Every building in the business section has been destroyed with the exception of the Mint. The Chronicle office, from which the newspapers have published sporadic issues of a combination sheet, became untenable last night, and is to-day a worthless ruin. The Fairmount Hotel, on Nob Hill, is threatened by fire on three sides, and a lone fire engine with a puny stream of water is keeping the blaze from a part of Mark Hopkins's Art Institute, while the treasures are being removed to a place of safety.

Measures to Keep Order.

Gen. Funston and Mayor Schmitz have given orders that men must work or keep off the streets. Lieut. McMillan, of the Revenue Cutter Bear, at the head of a squad of sailors from a battleship, compelled loafers to pitch in at the point of a pistol.

Uncle Sam's soldiers and sailors are doing fine work, and it is expected that they will be able to maintain order in the city after nightfall.

The general opinion of those who are in a position to form a coherent judgment of the destruction of property is that it will mean a loss of \$300,000,000.

To Shoot All Looters.

The military is unusually strict in the enforcement of the order to shoot all looters. One man on Market street who was found digging in the ruins of a jewelry shop was discovered by a naval reserve man and fired upon three times. The fellow sought safety in flight, but the reserve man brought him down by running a bayonet through him.

The bodies of three thieves were found lying in the streets on the south side this forenoon. It is impossible to
